1. INTRODUCTION

Point of Care Testing (POCT) is a term used to describe laboratory testing performed usually by non-laboratory staff mainly medical and nursing staff outside the main laboratory. It is function as a near patient testing (NPT) to provide better care for patients especially those needed close monitoring. POCT is widely used in Ministry of Health (MOH) and is likely to increase because of advancing technology and changing clinical practise.

POCT Hospital Serian committee is chaired by Dr Maria Mesran, Director of Hospital Serian. The committee members are from multidisciplinary including representative from Pathology Department, Emergency & Trauma Department, General Medicine Department, Obstetrics & Gynaecology Department, Pediatric Department, Outpatient Department, and Hemodialysis Department.

2. THE ROLE OF HOSPITAL SERIAN POCT COMMITEES:

- 2.1 To ensure that POCT devices are implemented and used appropriately and that each POCT test is undertaken safely and reliably.
- 2.2 The Matron / Sister / Nurses / Assistant Medical Officer / Scientific Officer / Medical Laboratory Technician in Hospital POCT Committee are to enforce policies, schedule new employee training and take corrective actions.
- 2.3 To monitor and review quality control data, troubleshooting, verify equipment function and maintenance.
- 2.4 To provide training for all staff and POCT users so that they are competent in the use of POCT devices.
- 2.5 To keep database of testing personnel and coordinate training on new personnel.
- 2.6 To analyse and send reports to the State POCT Committee annually or when necessary.
- 2.7 To provide consultation and evaluation on POCT devices.
- 2.8 To receive reports and resolve issues relating to POCT.
- 2.9 To advise that Standard Operating Procedures for all aspects of the testing process are documented in accordance with the requirements of accreditation body.
- 2.10 To ensure scheduled review of SOP is carried out.
